TESTIMONIAL

This is to certify that Shri Dilip B. Boralkar has passed M.Sc. Botany examination with Plant Physiology as special subject in June 1976. I know him since two years. He is a hard working and obedient student and bears a good moral character. He has successfully carried out bonafide dissertations in the M.Sc. Previous and Final under my supervision. They are :

M.Sc. Previous : "Growth of two fungi on different media"

M.Sc. Final : "Factors affecting the proteolysis of cytoplasmic fractions".

I wish him success in his future endeavours.

Date . . 22.5.77..

CERTIFICATE

This is to certify that I have known Shri D.B . Boralkar for the last 3 years. He joined this Department for his Masters Degree in Botany with Plant Physiology as special subject in 1974. He passed the examination in 1976 with a good second division.

Shri Boralkar is a painstaking and sincere worker with a flair to do experimental work. He is meticulous in his work and has also a good library habit. He is very unassuming by nature and gets along well with his colleagues and associates. He has a fair command over the English language.

I feel that he has the necessary background for undertaking advanced work abroad. I recommend him for consideration for the award of a Pre-doctoral Fellowship.

# THE ACADEMY OF ENVIRONMENTAL BIOLOGY, INDIA

Membership No. 49

With great pleasure I certify that the Council of the Academy of Environmental Biology, India in its meeting held on - , has elected Dr/Mr Sorsaker, D.S. as a *FELLOW* for life/Year 1981-82. You are permitted to write the abbreviation 'F. A. E. B.' after your name in accordance with the constitution of the Academy.

The Academy is a brotherhood in which all the members are regarded as the members of a family. While welcoming you in the Academy, may I hope that you will do your best to promote the interest and cause for which we all stand, and co-operate enthusiastically in the progress of the Academy.

Secretary :

*The Academy of Environmental Biology, India*

Encloses :

1. Membership Card
2. Receipt of Re. 60/-only.

Dr R N Joshi  
Professor of Botany

Institute of Science,  
Aurangabad 431 001 INDIA

TO WHOM IT MAY CONCERN

Certified that I know Mr Dilip B. Boralkar for the last six years. He passed B.Sc from Saraswati Bhuvan College affiliated to the Marathwada University in high second class. I could observe his qualities closely when he joined M.Sc in the Department of Botany, Marathwada University, Aurangabad where I was employed as a Reader. Mr Dilip Boralkar also passed his M.Sc at the first attempt in high Second Class. Dilip also wrote a project on a problem connected with the production of protein from green vegetation for human consumption for his Plant Physiology Special subject.

I am extremely pleased to testify to the qualities of Dilip. I have no hesitation in stating categorically that Dilip is resourceful, sincere, hardworking and methodical in whatever work he undertakes. He comes from a respectable family. Dilip is courteous and unassuming in nature and gets on well with his colleagues. He is good in team work. He bears sound moral character.

At present Dilip is working on an interesting problem which involves studies on effects of pollutants on plant growth. With his knowledge in Plant Physiology, I feel, he should be able to carry out this problem successfully and secure the degree of Doctor of Philosophy of the Bombay University. His findings, when published, would be of great practical value. I wish him all success.

Dated 7<sup>th</sup> FEB, 1978

To Whomsoever It May Concern

I know Mr. Dilip B. Boralkar since July, 1976, when he joined Institute for research work leading to Ph.D. degree. He had passed his M.Sc. degree from Marathwada University in the year 1976, for which he had prepared two small research projects, entitled:  
"Growth of two fungi on different media" M.Sc. Previous, &  
"Factors affecting the proteolysis of the Cytoplasmic fractions in Lucerne and Sannhemp". M.Sc. Final.

Since joining this Institute, he has been working on an U.G.C. research project entitled, "Effects of Industrial Air Pollutants on Plants", which is also his Ph.D. research topic. He is expected to complete his work soon.

As a result of his hard work, he was in a position to present a paper on "Effects of Sulphur di-oxide on Sannhemp-C. juncer. L." in the last session of the Indian Science Congress Association, at Ahmedabad. This month he is being deputed to participate in the Regional Training Course in Environmental Education, at Udaipur University, which is being sponsored by the International Youth Federation for Environmental Studies and Conservation.

Mr. Boralkar is a young, enthusiastic man and has capacity for hard work. He has pleasant manners and has established a cordial relationship with his colleagues. As a junior ~~colleague~~ colleague in the Department he has won many friends for himself and I am sure he will continue to do the same in the future.

I recommend Mr. Boralkar to position suitable for his training and qualification.

Bombay 400 032.

To whomsoever it may concern

I know Mr. Dilip B. Boralkar since July, 1976 when he joined Institute for research work leading to Ph.D. degree under my guidance. He had passed his M.Sc. degree from Marathwada University in the year 1976, for which he had prepared two research projects entitled: "Growth of two fungi on different media", in Previous and "Factors affecting the proteolysis of cytoplasmic fractions", in Final when he had Plant Physiology as special subject.

Since joining this Institute he was working on an University Grants Commission Research Project entitled "Effects of industrial air pollutants on plants" which is also his Ph.D research topic. He has submitted the synopsis of his work to University of Bombay, and is expected to submit the thesis soon.

He has presented one paper each in the Indian Science Congress Session at Ahmedabad in January, 1978 and in the Symposium on Environmental Biology, at Muzaffarnagar in October, 1978, on air pollution effects on plants.

Mr. Boralkar was deputed to participate in the Regional Training Course in Environmental Education, at Udaipur, which was sponsored by the International Youth Federation for Environmental Studies and Conservation. On return from this course, Mr. Boralkar has started the Bombay Environmental Group which is a voluntary organization of youths concerned with environmental education and awareness. He is also one of the Associate Editors of the ENVIRONMENTALK- a quarterly bulletin of the Bombay Environmental Group.

Mr. Boralkar is a young, enthusiastic man and has capacity for hard work. He has pleasant manners, and has established a cordial relationship with his colleagues. To the best of my knowledge he bears a good moral character.

I recommend Mr. Boralkar to a position suitable for his training and qualifications.

Date: 22-12-78.
